

READ&WRITE FOR GOOGLE CHROME

A REALLY NEAT
•
RESOURCE

Read&Write for Google is an extension that can be enabled through the Chrome Browser; it provides comprehensive reading & writing supports while accessing the Internet as well as Google Docs, etc.

- Text-to-speech provides auditory feedback and allows individuals to have text read aloud with easy-to-follow highlighting for visual tracking
- Text and picture dictionaries provides a multi-modal approach to learn the meaning of words
- Speech-to-text (dictation)
- Word prediction offers predicted suggestions for the words as the letters are typed
- Collect highlights from text in documents or the web for research and organization
- Create and listen to voice notes directly inside of Google Docs
- Improve readability and summarize text on Internet
- Create vocabulary lists from designated words found through research
