Among many brilliant ideas and tools, [@tonyvincent](#) posted the following support for recording on an iPad, with iOS 11". Love it!

Screen record and narrate in any app with iOS 11 

- 

1 Swipe up to view Control Center.
- 

2 Tap and hold the Record button and tap to turn Microphone Audio on.
- 

3 Tap Start Recording and use any app.
- 

4 Tap the red bar to stop recording. The video is saved to Photos.

 Add the **Screen Recording** button to Control Center in Settings → Control Center → Customize
